Blood Burgundy

Operation Manual

Thank you very much for buying our product.

DIVA Kandy was developed as Kandy Color that made with pigments and it stops color steps even though general Kandy Color tends to be thought of as a color that easily causes color steps because of partly dyes including imports.

Generally, pigment is a paint that is good of the concealment because of big particles but DIVA Kandy is a Kandy Color that came out by an original technology that splits pigment to NANO particles.

1. Take a choice a number within of 500~800 of sandpapers for finishing the surface preparation.
2. Paint the base color after finishing the surface preparation. It is ordinal to take a choice rough silver color but the light stability will be much better and you can avoid risks like color unevenness to paint the similar color as the base color.
3. DIVA Kandy is a concentrated type. Please use the Binder for DIVA Kandy or your daily clear in 2~8% diluted form. (Both non hardner and hardner are acceptable.) Have intervals of about 5~10 minutes after painting DIVA Kandy every time.
4. Finish painting DIVA Kandy and paint top coat clear.
5. Polish a surface clean as usual after it dries.

dilution ratio for 1Kg Binder

DIVA Kandy	Binder for DIVA Kandy	Thinner for DIVA Binder
20~80 g	1000g	100~150%

Cautions

When you handle this product, make sure to use rubber gloves and glasses to protect your skin and eyes.
 In case it gets into your eyes, wash them with running water thoroughly and see a doctor.
 In case it comes into contact with your skin, please wash it thoroughly until the slimy feeling is gone.
 If you feel pain and something amiss, ask a doctor for instruction.
 After use, make sure to close the lid firmly and leave it where it dark and cold, away from the direct sun.
 Please keep it away from young children.
