### Operation Manual

Thank you very much for buying our product.  
We recommend the trial painting before the actual painting.

1. Please take off dusts, oil contents, wax and more by fabrics as surface preparation.
2. First painting should be thin and uniform.
3. Please paint thickly from the second painting. The coating film is going to be thick and easy to peel it off, which depends on the numbers of painting.
4. Rubber Paint dries in approximately 4 hours. (The drying time depends on season, weather and more.)  
You can peel off the painting completely after drying. (Please remove the leftovers by a parts cleaner.)
5. Rubber Paint doesn't make available for fabrics and rubber products.

### Cautions

When you handle this product, make sure to use rubber gloves and glasses to protect your skin and eyes.  
In case it gets into your eyes, wash them with running water thoroughly and see a doctor.  
In case it comes into contact with your skin, please wash it thoroughly until the slimy feeling is gone.  
If you feel pain and something amiss, ask a doctor for instruction.  
After use, make sure to close the lid firmly and leave it where it dark and cold, away from the direct sun.  
Please keep it away from young children.
