Hobby Color Series User Guide

Thank you for purchasing the products. Ensure to read this manual before using the products.

1. Prepare to sand down lightly before applying the paint.
2. Apply base color based on below recommendation.

Recommended SHOW UP Base Color		Micro bottle dilution Rate
EkiShow	Sunshine red, tasty orange, lake blue, real black, forest green, etc.	100~150%
dope	Basically, base color is not necessary. Use real black to fully cover pre-existing condition.	100~150%
Vpearls	Soul grey	100~150%
Maziora	Cosmo collection – real black Alps collection – air white	100~150%
KRONOS fine	Sunshine red, tasty orange, lake blue, real black, forest green, etc.	100~150%
ax	Real black or air white	50~100%
SCALE PEARLS	Any SHOW UP base color of your choice will do.	50~100%
DUAL METALLIC	Real black	100~150%
Phantom Aurora Space	Sunshine red, real black, lake blue	80~100%

3. After the base coat, apply the color of your choice: EkiShow, dope, Vpearls, Maziora, KRONOS fine, ax, SCALE PEARLS, DUAL METALLIC, Phantom Aurora Space
Do not care too much about perfecting the surface while applying the paint, rather care to paint glossy instead.
*Make sure to dilute 50~150% based on dilution rate recommendation for each product – see the table above.
4. Upon applying the color paint, use the top clear coat to finish.

Precaution for use

Get medical attention immediately, in case feeling sick, ill, unwell while using the product. Promptly wash eyes with plenty of water if inhaled or gets in the eyes. Get medical help if irritation continues.

Wear protective clothes such as masks, protective gloves and avoid inhaling the vapor for a long time.

Keep the product in the cold place in order to avoid fire hazard.
